

UW

UNIVERSITY
OF WYOMING

Assistant Professor - School of Teacher Education - Job ID 9217

The University of Wyoming School of Teacher Education invites applications from dynamic, qualified candidates with a strong background in mathematics and science education for a position as an Assistant Professor. The successful candidate will teach 5 courses per academic year in undergraduate/graduate initial teacher licensure programs, as well as highly respected Ph.D. programs in Mathematics and Science Education. In addition, the candidate will be expected to produce high-quality scholarship and engage in service to the school, university, and professional community.

The University of Wyoming invites diverse applicants to consider our employment opportunities. We are also especially interested in candidates who have experience working with diverse populations and/or diverse initiatives.

Minimum Qualifications

An earned doctorate with an emphasis on mathematics education, or a closely-related discipline. Minimum of 3 years of K-6 teaching experience Demonstration of or potential for excellence in teaching, supervision and mentoring students. Demonstration of or potential for research, scholarship, and competitive extramural funding .

Desired Qualifications

Strong background in science education. Experience collaborating with education stakeholders in both P-12 and university settings. Experience working with diverse students and faculty. Experience or interest in distance education.

Required Materials

Complete [on-line application](#) and upload the following as one document: cover letter that states both your interest in the position and your teaching philosophy; a description of your research agenda and a copy of a recent publication, if available; your CV; unofficial transcripts; and contact information for three work-related references.

Welcome to Laramie

The University of Wyoming is located in Laramie, a town of 30,000 in the heart of the Rocky Mountain West. Laramie offers both outstanding recreational opportunities and close proximity to Colorado's Front Range, a bustling group of metropolitan cities including Denver, Boulder, and Fort Collins. This beautiful mountain landscape offers outdoor enjoyment in all seasons, with over 300 days of sunshine annually. For more information about the region, please visit <http://visitolaramie.org/>.
